## Hillsborough Honors Dr. Caesar DePaço and Deanna Padovani-DePaço For Generous Contributions to Hillsborough Police Department

Mayor Gloria McCauley announced that Hillsborough Township Police Department will be receiving a new K9 later this month, along with another fully equipped K9 patrol vehicle. As a result of the generous contribution of Dr. Caesar DePaço and Deanna Padovani-DePaço, this will be the Township's third Police K9.

In 2013, Dr. Caesar DePaço and Deanna Padovani-DePaço purchased a K9 for the Hillsborough Township Police Department, a Belgian Malinois that took over for Hillsborough's first K9, Raider, upon his retirement. Caesar and Deanna have paid for all services and equipment required for the K9. In addition, the DePaços purchased conductive energy devices (tasers) for the Police Department.

In 2014, Caesar and Deanna bought a fully equipped canine SUV for the Hillsborough Police Department. In 2018, they purchased patrol rifles for the force.

#### *Get Ready For Flu Season*

The 2018-2019 flu season is approaching fast. The Center for Disease Control recommends that all people over the age of 6 months be vaccinated by the end of October. All preschool age children from age 6 months to 59 months must be vaccinated against the flu in order to attend school. Remember that you cannot get the flu from the flu shot and the flu shot takes 2 weeks to be fully effective. Please read [reasons to get a flu vaccine by the Center for Disease Control](#). This document also lists conditions that increase the risk of complications from the flu, since people with immune deficiencies, chronic conditions, the elderly, and young children can be at a greater risk of complications from the flu which may be severe.

There is sometimes confusion about what is the flu and what is a cold. Generally, flu causes fever, body aches and pains, fatigue and weakness, chest discomfort and cough. Sometimes there are other symptoms as well. [Read more about when to suspect the flu](#).

If you think you have the flu, stay home from school or work, drink fluids, rest, and call your doctor. There are antiviral medications that can be prescribed that will help you get better faster if taken early. [Read more information about how to care for yourself and family members with the flu](#) and dangerous signs to look for in young children and adults.

The Health Department will co-sponsor several vaccination clinics this year. Information about the health insurances that will be accepted and the cost for those without health insurance is posted on the Health Department website.

**Thursday, September 13th**, from 3:00 to 4:30 PM at the Hillsborough Municipal Building. Green Brook Family Medicine will be here to vaccinate those ages 6 months and up.

**October 2nd, and October 16th** Walgreens of Hillsborough will be at the Municipal Building from 3 PM to 6 PM.

Please bring your health insurance card to the clinics.
