### **Outdoor Dining Blossoms in Hillsborough Amid Pandemic - 18 Local Food Establishments are Offering Outdoor Dining**

Whether you have travel plans for the upcoming holiday weekend or are staying local, options for outdoor dining in Hillsborough run the gamut in variety. Last month Township Officials assisted local food establishments through the temporary outdoor dining permit process resulting in 18 local food establishments offering outdoor dining as an option in addition to carry out and delivery.

“Amid the COVID-19 pandemic, we have been creative in supporting our local businesses and when Executive Order 150 permitted outdoor dining, our Township Departments collaboratively fast tracked temporary permits to further assist our business community,” stated Mayor Doug Tomson.

Be sure to visit the Township website Guide to Restaurants at <https://hillsborough.311.town/#Restaurants> to see where you can dine al fresco, carry out or have delivery.

“Support our local businesses and dine local,” concluded Mayor Tomson.

## RWJBarnabas Health Offers Hydration Tips for Adults and Children -

visit [healthlibrary.barnabashealth.org](http://healthlibrary.barnabashealth.org) to learn about other health tips.

# Hydration Tips

When competing, running or participating in any other physical activity, follow these tips to stay hydrated.

- ▶ Drink four to eight glasses of fluid (32 to 64 ounces) the day before the event.
- ▶ Drink two to three glasses (about 14 to 22 ounces) of fluid before exercise the day of the event.
- ▶ Drink six to 12 ounces every 15 to 20 minutes during exercise.
- ▶ Beware of sports drinks with stimulants like caffeine, as they can be dangerous. They are not recommended before or after exercise.
- ▶ Drink on schedule rather than relying on thirst.
- ▶ Drink during training, as well as competition.

**Each day, set a goal to drink at least eight glasses of fluid.**

Don't limit yourself. Water can come from any beverage – juice, coffee, tea, milk and even soup. However, it is important to be cautious. Caffeine in coffee and tea boosts your body's water output, offsetting some of the benefits of taking in the fluid. Also, the sugar in regular soft drinks may pose a danger to individuals with diabetes or to those who are watching their weight.

**Looking for a refreshing drink...be creative.**

For those who want to try something a little different, fruit juice mixed with club soda or seltzer water makes a refreshing carbonated drink. And, a twist of lemon or lime will make plain water more appealing.

## COVID-19 Hillsborough Reported Cases

	Hillsborough	Millstone	Somerset County	New Jersey	United States
<b>CASES</b>	405	3	4,327	171,667	2,624,873
<b>DEATHS</b>	54	NA	447	13,181	127,299
<b>RECOVERED</b>	205	NA	NA	NA	NA

### Breakdown of Hillsborough Township Cases As Reported by Hillsborough Township Health Department

Daily Case Count

Positive Hillsborough Township Cases by Age Range

Deceased by Age Range

#### Disclaimer:

Please be advised that the numbers posted here and on the Township website are those that are reported by Hillsborough Township Health Department based on reports from the NJ Department of Health surveillance system. The reported numbers are only from those individuals who have been tested for COVID-19 and are confirmed positive through an FDA approved laboratory for COVID-19 testing purpose. It does not include those contacts of the positive individuals or any individuals, who are sick and have not been tested.

#### Hillsborough Long Term Care/Assisted Living

\* Confirmed cases and confirmed deceased from Long Term Care and Assisted Living Facilities may not also be included in the total number of cases above.

The number of cases from the above section by age and deceased cannot be added to the Long Term Care and Assisted Living Facilities confirmed cases and confirmed deceased to get a total case count and a total deceased count. The reason for this is that there are different reporting mechanisms in place capturing that data. The NJ Department of Health surveillance system obtains reports from State run labs. The Long Term Care and Assisted Living Facilities utilize many different labs, State, out-of-

state and private, therefore, their numbers are not completely reflected in the total Hillsborough numbers from the State system at this time. That withstanding, you cannot simply add the two sets of numbers either to get a total case count, as some of the LTC/ALF numbers are counted in the State system.

**If you are a Hillsborough resident and have tested positive for Coronavirus / COVID-19, please contact the Health Department at 908-369-5652.**

The Hillsborough Township Health Department continues to monitor all cases and is working with the State to identify any potential contacts for follow-up. A representative from the Hillsborough Township Health Department will reach out to all individuals determined to have been in close contact with the positive testing persons within 24-48 hours of each case being confirmed.
